

Unidades Expressões Regulares - Introdução à Teoria da Computação

1. Diferença as expressões regulares equivalentes com seguintes AFDS

1a.

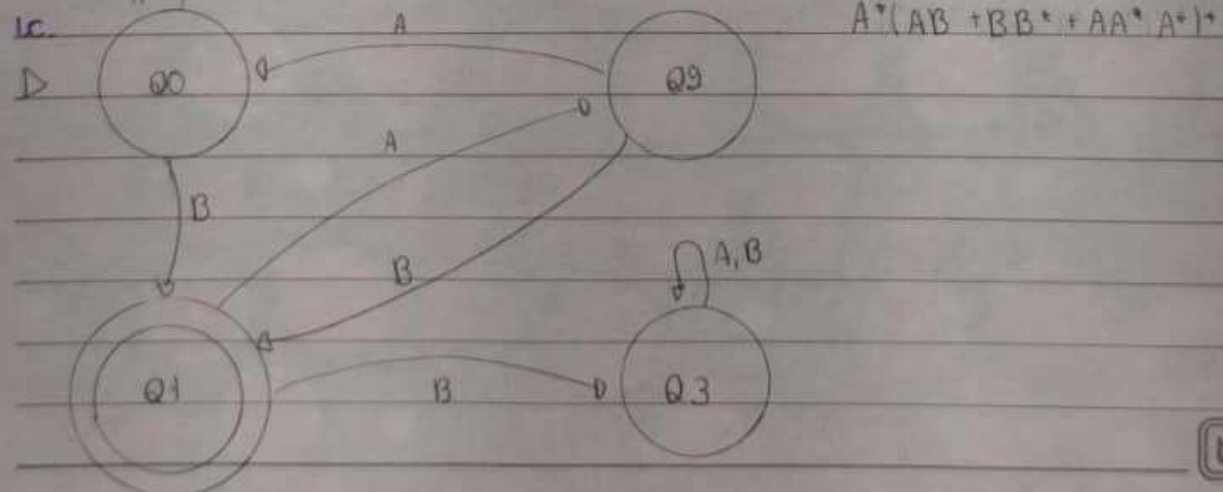

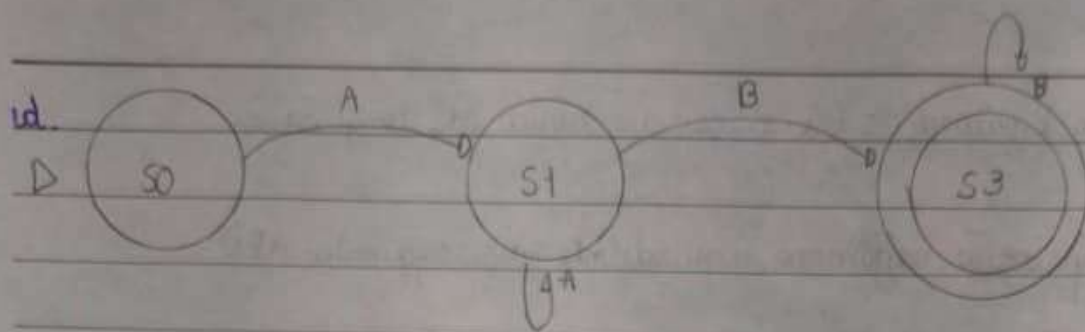

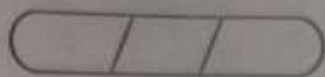

1b.

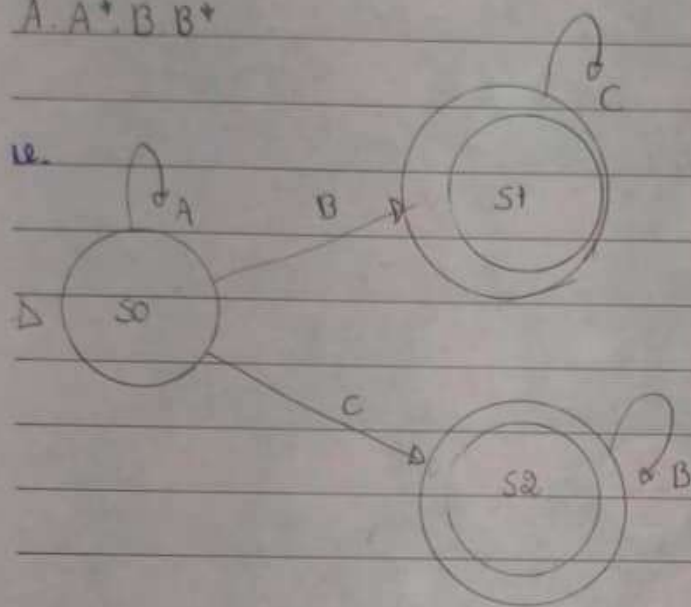

A(C, D)* B . A (B, A)*

1c.

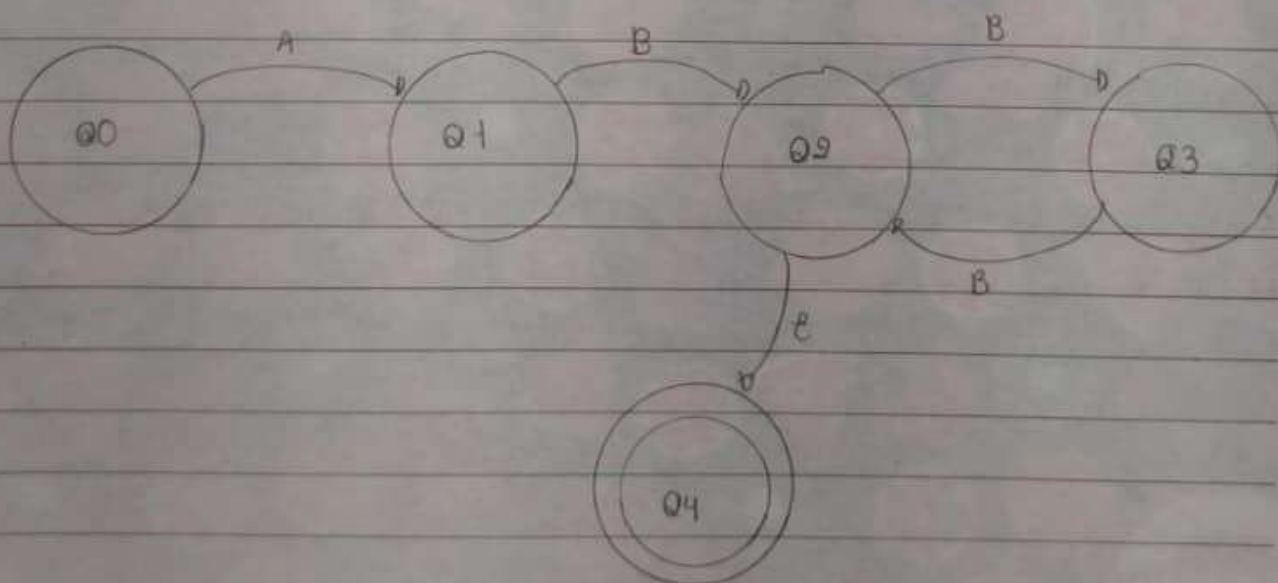

$A.A^*.B.B^*$

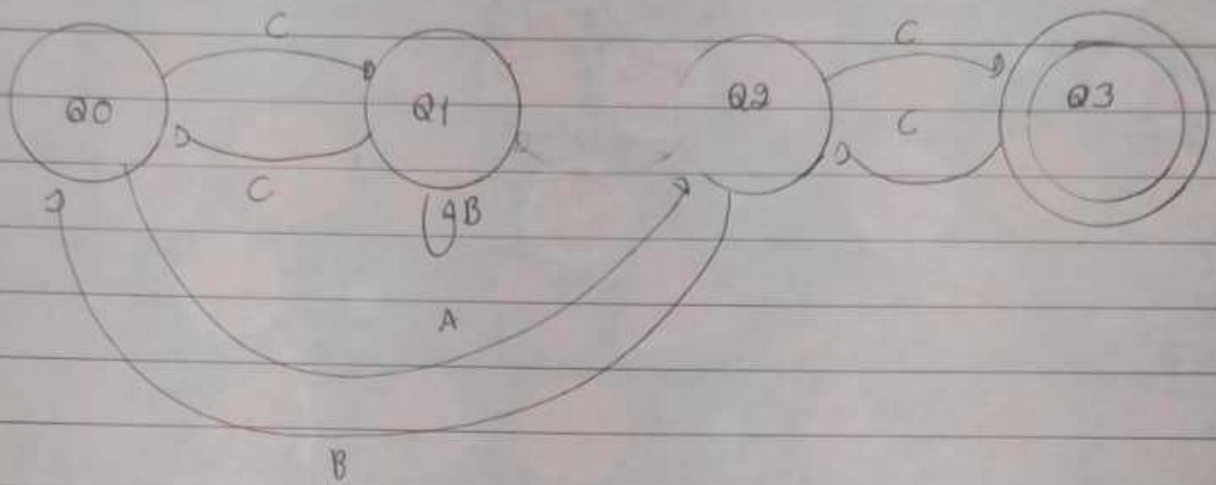

$A^*(BC^* + CB^*)$

2. Construa AFN ϵ para as seguintes linguagens regulares, e converta em AFN

1a. $ab(ab)^*cc$

1b. $CC^*AB^* + AB^*CC^*$

1c. $BCC^*(B+A)^*$
